Mr Pradip Mukherjee
Chief Executive,
BARC Vashi Complex,
Sector 20, Vashi,
Navi Mumbai – 400 703.

Dear Mr Mukherjee,

TMC / ACTREC delivered India's first high-dose [800 mci] I131-MIBG therapy to a 17 year old male child with metastatic neuroblastoma. This treatment presented significant logistical challenges in delivering the high-dose treatment and isolating the patient. A brief write-up on the treatment and its press coverage is enclosed for your kind attention.

I would like to gratefully acknowledge the contribution of BRIT, which supplied the high-dose I131-MIBG.

With best wishes,

Dr. Sudeep Gupta
Director,
Tata Memorial Centre
